AREA DATA

Now more than ever we are looking to slow down and live a more intentional life. Moving to the Shuswap means you don't have to give up the luxuries of life like wine tasting or amazing food. Located in the heart of the Interior of BC, life on the Shuswap is serene; rural, quiet and slow living mixed in with entertainment, excitement and activities for everyone in your family to enjoy. Say goodbye to spending hours in traffic and hello to more time spent in nature doing the things you love.

Anglemont is a lakeside community in the North Shuswap, located 1 hour to Salmon Arm and just over an hour the major city of Kamloops. The

North Shuswap is made of a string of lakeside communities—Lee Creek, Scotch Creek, Celista, Magna Bay, Anglemont, St. Ives, and Seymour with a year-round population of approx. 3,500 and many more vacation home visitors. The North Shuswap truly is an unparalleled paradise. Mild winters, warm/hot summers, long autumns and short winters make for a perfect BC lifestyle. Rainy periods last hours, not days or weeks and then the sun is out again. A long growing season means that gardeners are some of the happiest people around here. Vineyards (the most northerly in the province), nectarines, apples, cherries, pears, peaches and parsnips grow throughout the area. Local farms produce excellent beef and lamb.

RECREATION

The North Shuswap and area surrounding this newly created subdivision is a four-season recreational mecca, the location for this estate lot community was carefully selected with recreational opportunities top of mind.

The lake is certainly the biggest lure to the Shuswap with amazing boating, fishing and swimming, and with access to a public beach and the local marina just mins away this is surely a big draw. The lake itself is unmatched in beauty with over 1,000 kms of shoreline, most of which is crown land offering everything from ample space for water sports to wilderness exploring.

But not to be overlooked are the North Shuswap's variety of year-round recreational attractions and uncrowded / "off the beaten track" hot spots. Each year there are usually 8 months of snow free recreation (less up in the alpine offering the ability to snowmobile and golf in the same day!). The snowmobile season runs for 6 months a year!

Here in the beautiful North Shuswap you can expect moderately hot and dry summers ideal for biking, hiking, golfing and motorized recreation on 1,000's of kms of FSR Roads and trails. Just over 1 km from Highland Park Estates is a scenic and well cared for 9-hole golf course with practice range and green.

The same distance away and near the golf course is the trail head to a local favorite but otherwise unknown hike to Evelyn Falls – a 3.6 kms trail through lush forest up to an waterfall where you can soak in its cool waters on a hot summer day.

The Shuswap is also home to some spectacular natural events, the world's largest sockeye salmon run is something to enjoy annually.

And in the winter, there is still plenty to do. There are over 45,000 acres of accessible snowmobiling terrain for riders and lots of trails for snowshoeing. The Celista Snowmobile Club maintains trails with trailhead access a short drive away. The surrounding slopes are covered with perfectly spaced trees and many subalpine bowls with maintained warming huts.

Bottom line ... there is a trove of recreational opportunities available, and in an increasingly hard to find uncrowded natural setting.
